1. Leaks

[] advised meeting attendees of the Office's significant involvement in the DCI's effort to combat leaks. In preparation for the DCI's upcoming speech to numerous leaders in the intelligence community on that topic, the Security Analysis Group (SAG) has assembled and evaluated a volume of information. To date, the Office has validated 103 leaks in the last 24 months; 285 have been validated in the last 5 years. SAG currently has 23 leaks under investigation. Historically, leaks have fallen into two categories: []
